Amethyst Bio Mat

FDA Approved Infrared & Negative Ion Complimentary Therapeutics for People & their Pets

A Breakthrough in MEDICAL SCIENCE

Prescribed by Doctors for Chronic Pain, Stress Management, Chronic Fatigue, Arthritis, Muscle Strain and more...

For Home and Professional Use

Eases Joint Pain & Stiffness:

Infrared heat therapy is widely used to treat patients suffering from many forms of arthritis. In addition, it has proven effective in the treatment of sprains, bursitis, muscle spasms, joint stiffness, neuralgia and many other muscular-skeletal ailments.

Improves the Immune System

Far Infrared's deep heat raises your body temperature, inducing an artificial fever. As it works to combat the "fever", your body's immune system is stimulated and strengthened.

Supports Detoxification

Increased blood circulation stimulates the release of built-up toxins and waste. Daily sweating can help detoxify your body as it rids itself of an accumulation of potentially carcinogenic heavy metals, nicotine, sodium, sulfuric acid and cholesterol, as well as alcohol

Strengthens Cardiovascular Function

FIR activates enzymes that stimulate the production of Nitric Oxide a key biological messenger, playing a role in a variety of biological process. These include blood vessel dilatation,

neurotransmission, "The more nitric oxide produced in arteries, the more the vessel walls relax and increase in diameter. Blood pressure normalizes in the process.

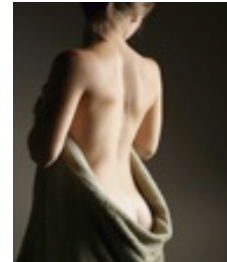

The Amethyst Bio Mat is safe and effective to use with your furry companions and can offer the same healing benefits so many other users of the Bio Mat have experienced. Cats, dogs, horses and similar mammals have the same basic physiology as humans and suffer many of the same health issues. They even suffer many of the same mental and emotional conditions, including anxiety and depression. The root causes are the same, cells are unable to expel toxins and wastes fast enough and the body succumbs to disease and dysfunction. You can enhance their quality of life with regular Bio Mat sessions.

Speeds Recovery

The deep heat of Far Infrared helps peripheral blood vessels dilate, bringing relief and healing to muscle and soft tissue injuries. Increased blood circulation carries off metabolic waste products and delivers oxygen-rich blood to oxygen-depleted muscles, so they recover faster.

Improves Skin Tone

The increased circulation that is achieved after just a few minutes on the Bio Mat carries off deeply imbedded impurities and dead skin cells, leaving the skin glowing and immaculately clean. This draws your skin's own natural nutrients to the surface.

Burns Calories

As you relax with the gentle heat of the far infrared, your body is actually hard at work, producing sweat, pumping blood and burning calories. According to a Journal of the American Medical Association report, in a single Infrared Ray session you may burn as many calories as you would rowing or jogging for 30 minutes.

Reduces Stress and Fatigue

The gentle warmth of Far Infrared gives you an overall massaging effect, soothing jangled nerves and knotted muscles. You'll feel rejuvenated, renewed, and restored

Holistic Health for the Whole Family

They are worth it and so are you!

Safe for Your Children and Your Pets
