**Experience State-Of-The-Art Technology
Blended With An Age-Old Tradition!**

- Improve Circulation • Relieve Stress, Pain & Fatigue
- Expel Toxins • Burn 600 Calories in 30 mins.
- Decrease Joint Stiffness • Boost Energy

Reduce Stress, Pain & Fatigue

Infrared Saunas are designed to create a deep radiant heat that operates from 110°F degrees to 130°F with a dry soft heat making it more comfortable than other saunas. Our own bodies radiate infrared energy out through the skin. This infrared wave penetrates deep into the fat and muscles of the body, creating a more powerful detoxifying influence upon the deeper tissues of the body. Wall to wall Carbon Flow™ heating panels create a wonderfully comfortable and superbly effective heat bathing environment.

- **Significantly boosts energy.**
- **Promotes profound relaxation and deep sleep.**
- **Enhances skin texture for a youthful appearance.**
- **Decreases cellulite & clears minor skin conditions.**

Words from satisfied clients...

"Freedom from stress - time for me - I thought nothing could give me peace & calm - this is remarkable!"

Bill - Nanaimo.
